

Genetically Modified Organisms (GMOs) Policy

Mitr Phol Group acknowledges the customer and consumer's concerns on Genetically Modified Organisms (GMOs). We are committed to delivering safe and high quality sugar. Our policy clearly states that we only use non-GMOs to produce sugar. We operate accordingly to the following guidelines:

1. Our raw materials must be sourced from a safe and traceable sources and manufactured from factories that meet international food standards.
2. The company respects and strictly comply with the laws and regulations on food safety of any country in which it operates or invests in.
3. The company takes into consideration customer's demands on GMO labelling even in cases where it is not legally required.
4. Our company provides the available channels for all stakeholders especially consumers to address their comments or concerns on GMOs issue.
