

## Health and Nutrition Policy

As Thailand's one of the world's largest sugar producers, Mitr Phol Group recognizes our very great responsibility to provide information to ensure our products are consumed at healthy levels. The health and nutrition of our customers and the greater community is of utmost importance to Mitr Phol Group. Further, in order to meet the consumer demands in a wider range, the Group provides a diverse selection of products. This includes a variety of sugar products ranging from pure refined sugar, to brown sugar, to various syrups, to Mitr Phol Lite Sugar, which is half the calories of the typical sugar while providing the same level of sweetness. Mitr Phol Group's long list of sugar product options gives consumers the choice to choose between a variety of flavors and product types, each consisting of different nutritional values and calories, thus implications on health. Sugar is associated with numerous health issues and obesity rates and the related disease symptoms have increased dramatically. Therefore, Mitr Phol Group is continuously working to innovate and provide new and improved products, such as healthy sugar alternatives, for the food industry and health-conscious consumers in the countries of operation and emerging markets. In order to ensure health and nutrition remains a top priority of Mitr Phol, we have established the following set of policies:

1. Mitr Phol Group will increasingly focus on innovative ideas and listen to consumer feedback for the implementation of healthy sugar product options which are;
  - Developing lower calorie sugar products to offer alternative healthier choices for consumers.
  - Providing a variety of serving sizes and packing types so that consumers can choose their calorie and/or sugar intake that is suitable for them.
2. Mitr Phol Group will promote healthy lifestyles by:
  - Providing knowledge and information on healthy appropriate daily sugar intake levels to discourage our sugar products from being over-consumed at unhealthy levels.
  - Interconnecting advertising our products and consumer health by including health-related and nutritional information in advertisements for products.
  - Organizing events that promote health and well-being for both internal and external participants, such as our annual running event, "Six Routes to Doing Good, Mitr Phol Volunteer RUN FOR YOU 2019", which promoted exercise.

3. Mitr Phol will continue to ensure product safety and maintain high product quality by:
  - Encouraging cane farmers to minimize the use of agricultural chemicals, especially ones that are harmful to human health, such as Paraquat Dichloride, Chlorpyrifos, and Glyphosate.
  - Prohibiting the utilization of Genetically Modified Organisms (GMOs) in all products.
  - Implementing product recall procedure if products are found to be unsafe.
  - Complying with laws and regulatory requirements related to the health of its countries of operations of all products sold under brands controlled by Mitr Phol.
